UNIT 2 BRINGING IDEAS TO LIFE

Project Introduction

set speaker sound to at % volume

play speaker melody at % volume

The MODI Speaker can play different musical notes to make tunes and melodies, letting you create your own music. It can also play songs or sounds that are already made, adding fun and variety to your MODI projects. This means you can both invent new music and enjoy your favorite tunes with MODI's Speaker.

EMMA'S BIRTHDAY MUSSIC SPEAKER

In a small, friendly town, Lily had a great idea for her friend Emma's birthday!

She used her MODI kit to make a cool gadget that played "Happy Birthday" with just a button press. At the party, when Emma pressed the button, the room lit up with the birthday music, making everyone smile. This special moment showed how fun and creative using MODI can be. The day ended with everyone dancing happily under the stars, making Emma's birthday unforgettable.

Required Modules & Brainstorming

Based on the story, which MODI modules do you need for this creation?

WHEN WE COMBINE ALL THE MODULES, A CREATION HAS TO BE LOOK LIKE THIS.

**TIPS**

You can observe how input data changes in the module map on the Code Editor when you experiment with the four different click types.

Module Functionality

Let's look detail about the Button module.

- ✓ clicked
- double clicked
- pressed
- toggle on

Button can receive 4 types of information.

1. Click

Detects if Button is clicked or not.
Range: True(Click once) : 100 / False : 0

2. Double click

Detects if Button is double - clicked or not.
Range: True(Click twice) : 100 / False : 0

3. Press

Show the press status of Button.
Range: True(Pressed) : 100 / False : 0

4. Toggle

Changes on / off when Button is clicked.
Range: True(On) : 100 / False : 0

THINK ABOUT IT!

Do you remember which action
Button can receive?
