Unit 3 - Designing Solutions

PDF Documents

PDF Document 1: 1738062128056-Chapter 4 - unit 3 - Designing Solutions.pdf

This PDF document is included in the unit materials.

UNIT 3 DESIGNING SOLUTIONS

● Programming Concepts

IF STATEMENT

Think of an "if statement" like a rule or a condition in a game. It's like saying, "If something is true, then do something."

Imagine you're playing a game where you have to decide whether to wear a coat outside. The rule could be: "If it's raining, take an umbrella. If it's not raining, you don't need to take an umbrella."

THINK ABOUT IT!

Let's think about different examples and draw them!

Exercise

- 1 As you draw the example, fill in the condition and statement and check how it works.

- 2 Read the code and guess what will happen when we turn the Dial over than 50%.

Flowcharts & Algorithms

Let's read the flowchart and create the code.

FLOWCHART
