UNIT 4 CODE QUEST

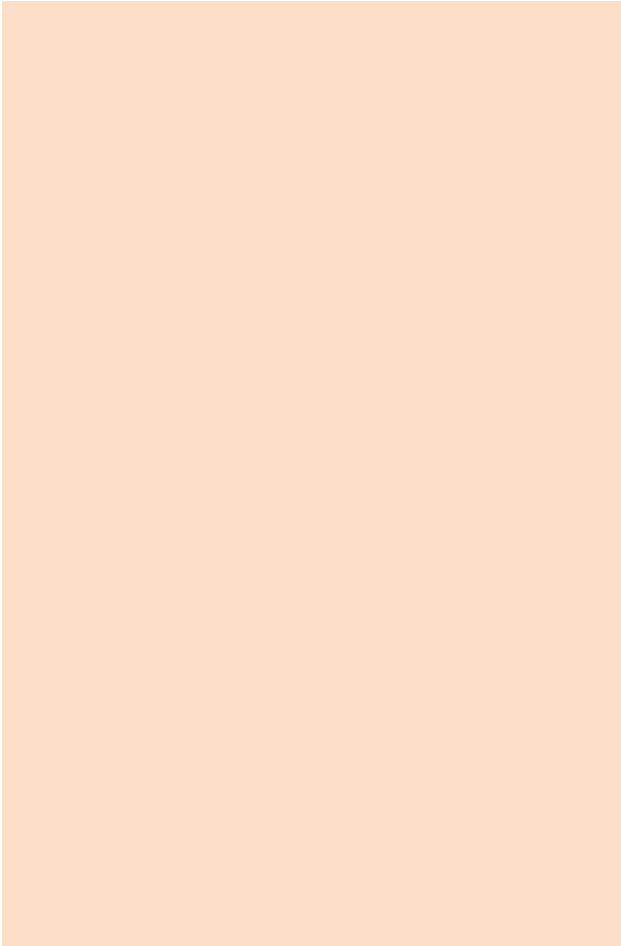

Applying Knowledge (code & debugging)

CODE

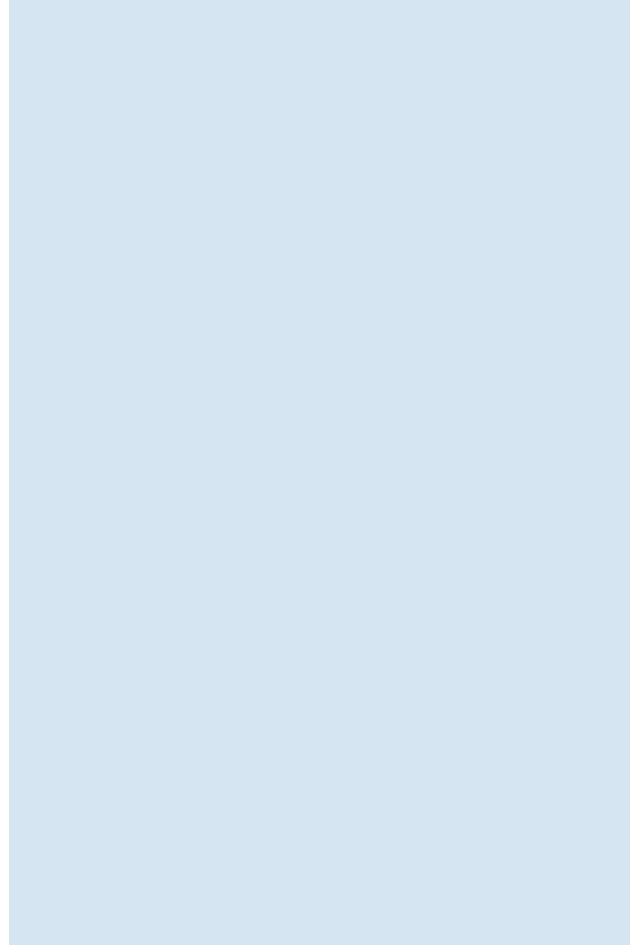

DEBUGGING

1 What if the speaker block is in the repeat block?

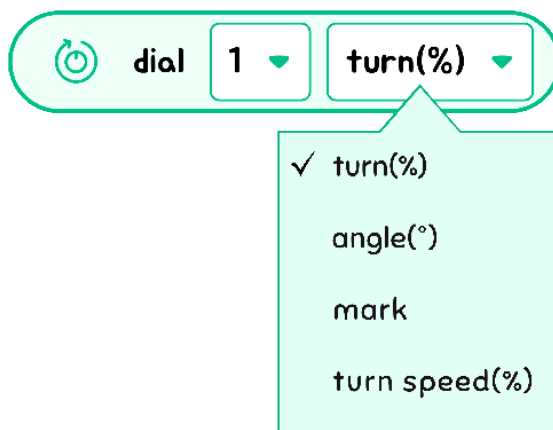

2 What if we use the Button module instead of using dial turn(%)?

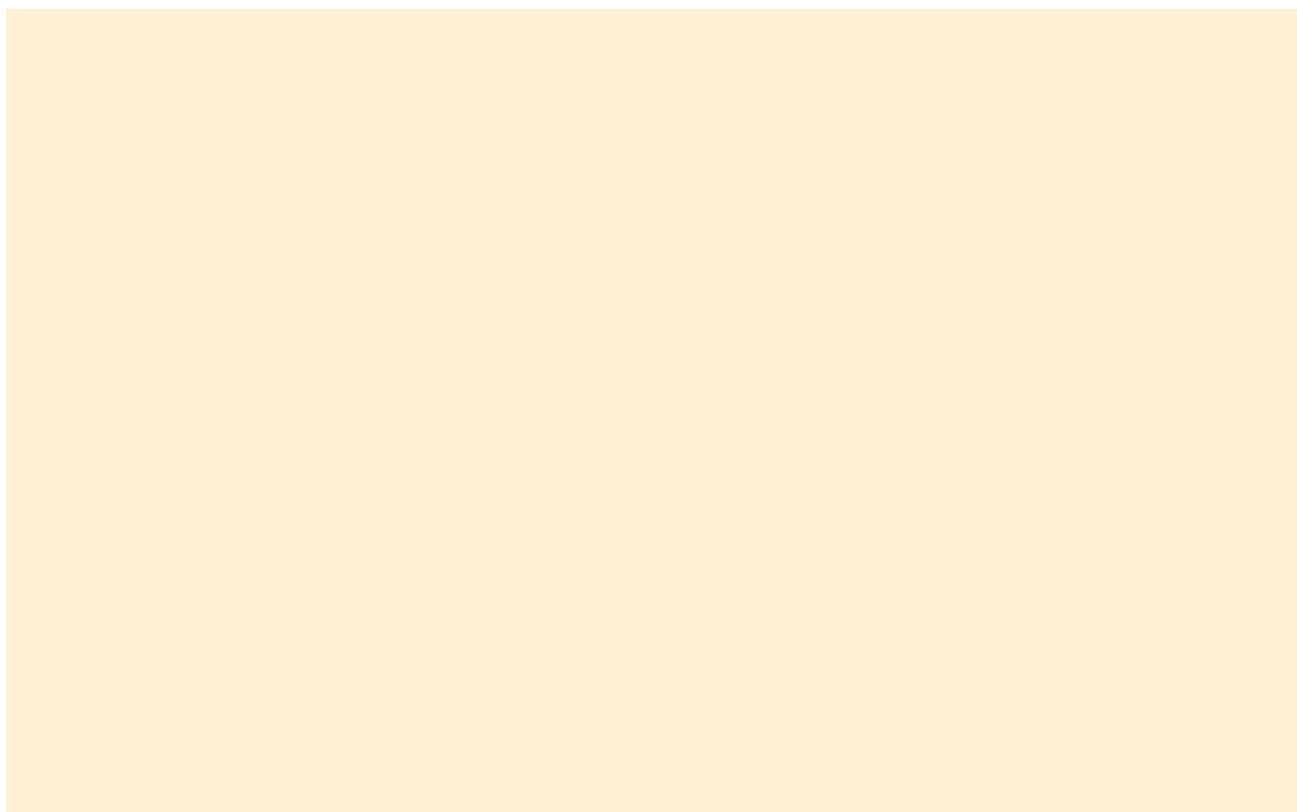

Missions

Mission 1

- 1 Instead of using the Dial's `turn(%)` value, set the timer using a different value from the Dial.

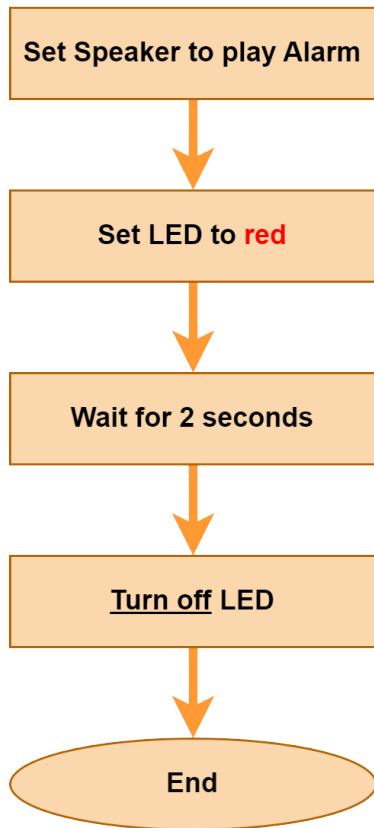

- 2 Replace the Dial with a Time-of-Flight (ToF) sensor to set the timer based on distance measurements.

Mission 2

- 1** With the addition of an alarm sound, we want to include a red blinking light.

- 2** Based on the flowchart, make the code.
