PDF Document 1: 1738153124018-Chapter 8 - Unit 4 - Code Quest.pdf

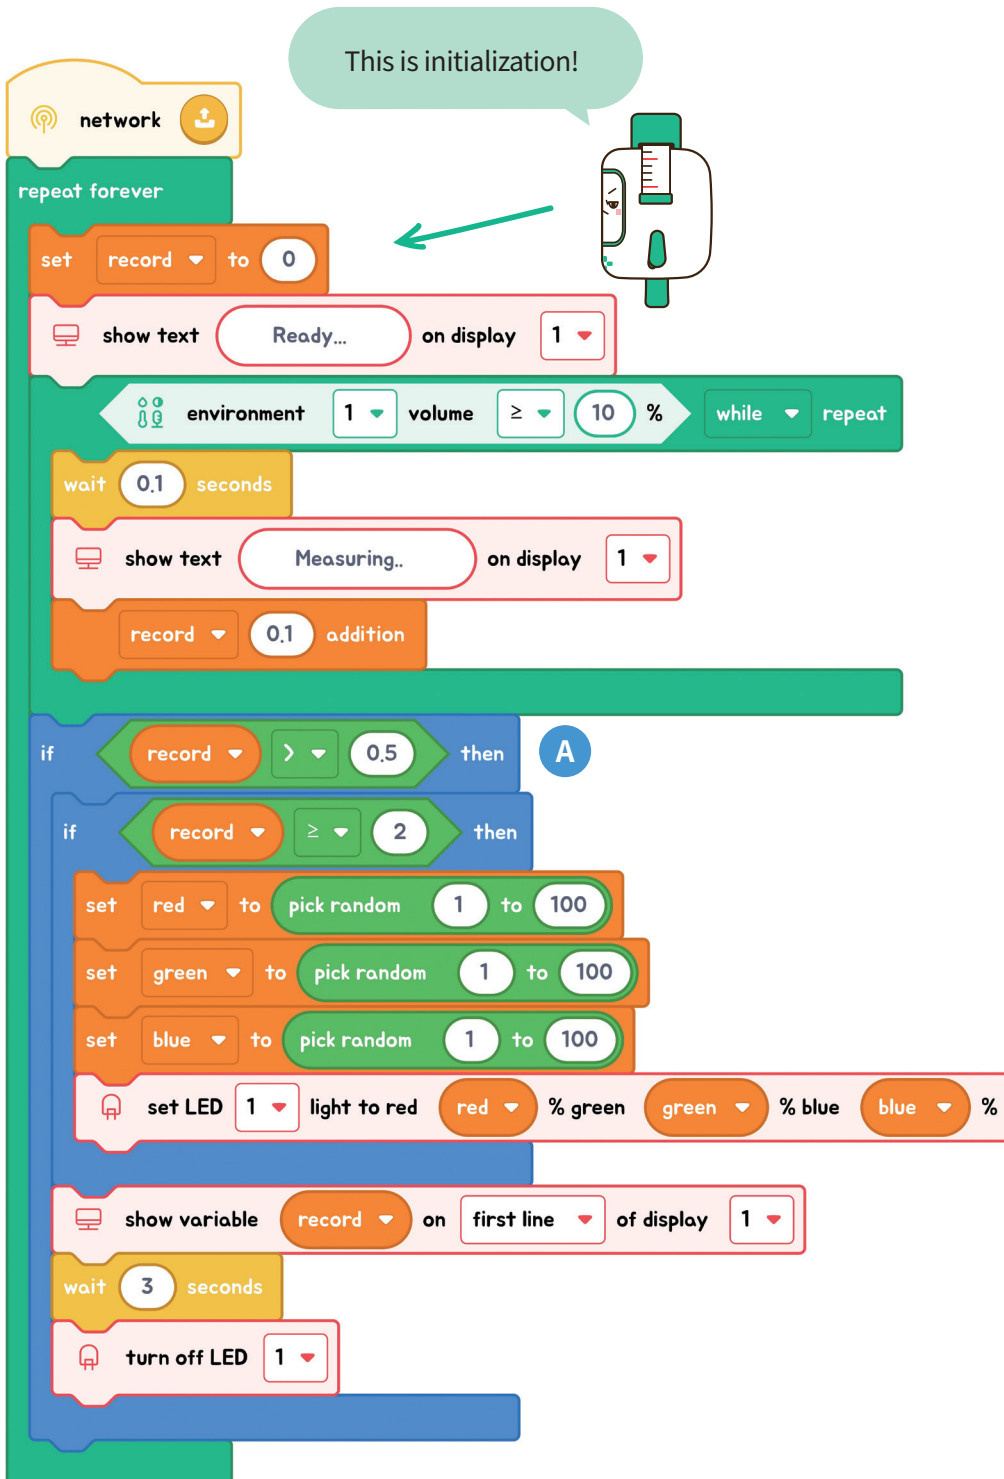

This PDF document is included in the unit materials.

UNIT 4 CODE QUEST

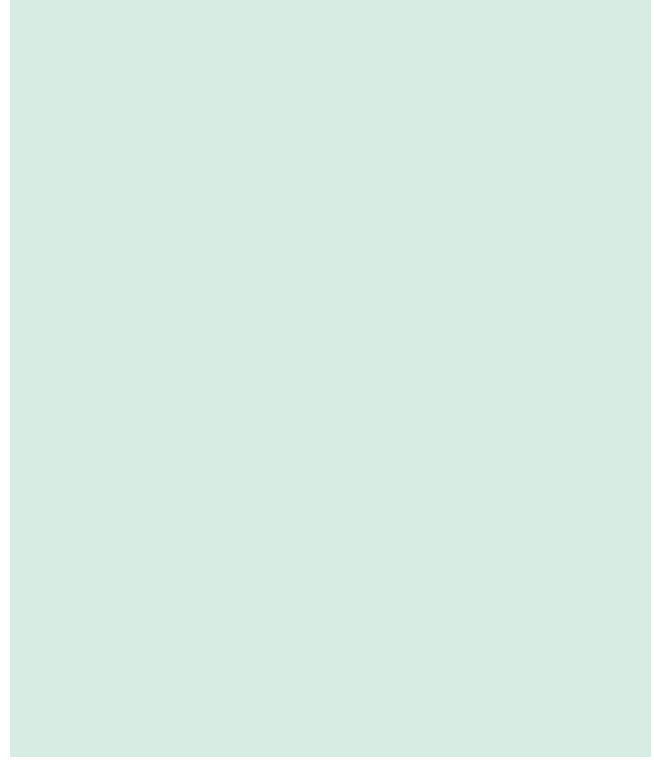

Applying Knowledge (code & debugging)

CODE

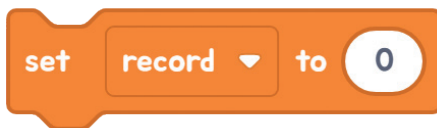

DEBUGGING

- 1 What will be happened if there are no initialization?
- 2 What is **A** if statement role?

MISSION 1

- 1 Where should we have to put this block to keep recording unlnss the program is over.

- 2 If we want to always show the variable record value, where should we move this block?

**MISSION 2**

- 1 Make the variable 'red' select only multiples of 3 between 1 and 100.

- 2 Make the variable 'blue' select only multiples of 10 between 1 and 100.

KNOWLEDGE CHECK

1 What is the primary function of the lungs?

- ☐ A To pump blood throughout the body
- ☐ B To filter waste from the blood
- ☐ C To exchange oxygen and carbon dioxide with the blood
- ☐ D To regulate body temperature

CORRECT ANSWER

☒ C

2 What is the purpose of a spirometer?

- ☐ A To measure blood pressure
- ☐ B To monitor heart rate
- ☐ C To assess lung capacity
- ☐ D To track sleep patterns

CORRECT ANSWER

☒ C

3 How can technology aid in monitoring lung health?

- ☐ A By tracking daily activities
- ☐ B By making us exercise more
- ☐ C By measuring heart rate
- ☐ D By monitoring blood pressure

CORRECT ANSWER

☒ C

4 Which MODI modules would be most suitable for building a spirometer?

- ☐ A Pressure sensor and light sensor
- ☐ B Sound sensor and display
- ☐ C Temperature sensor, humidity sensor, and GPS
- ☐ D Accelerometer, gyroscope, and magnetometer

CORRECT ANSWER

☒ B

5 What is the primary purpose of a random number generator?

- ☐ A To produce a sequence of numbers in a specific order.
- ☐ B To generate a sequence of numbers that cannot be predicted.
- ☐ C To perform complex mathematical calculations.
- ☐ D To store large amounts of data.

CORRECT ANSWER

☒ B

6 What is a variable used for?

- ☐ A To store a value that can change
- ☐ B To define a function
- ☐ C To create a loop
- ☐ D To comment on code

CORRECT ANSWER

☒ A

7 How can technology contribute to improving lung health?

- ☐ A By providing early detection of respiratory issues
- ☐ B By enabling personalized treatment plans
- ☐ C By promoting healthy lifestyle habits
- ☐ D All of the above

CORRECT ANSWER

☒ D

Critical Thinking Challenge

- 1 How can real-time data collection from a spirometer be used to improve a person's lung health?

- 2 **Why is lung health considered so important for overall well-being?** Explain your answer, providing examples of how poor lung health can impact daily life.
