Unit 4 - Knowledge Check

PDF Documents

PDF Document 1: 1738153710723-Chapter 9 - Unit 4 - Knowledge Check.pdf

This PDF document is included in the unit materials.

KNOWLEDGE CHECK

1 What is the primary goal of sustainable gardening?

- ☐ A To grow as many plants as possible
- ☐ B To use the least amount of water possible
- ☐ C To grow plants in a way that is environmentally friendly and sustainable
- ☐ D To grow plants indoors

CORRECT ANSWER

☒ C

2 How can technology help with sustainable gardening?

- ☐ A By providing entertainment
- ☐ B By monitoring plant growth
- ☐ C By automating tasks like watering and fertilizing
- ☐ D By creating artificial sunlight

CORRECT ANSWER

☒ C

3 What is the main purpose of using smart technology in plant watering?

- ☐ A To make watering more fun
- ☐ B To save time and water
- ☐ C To grow larger plants
- ☐ D To create a more complex gardening system

CORRECT ANSWER

☒ B

4 How does moisture detection technology work?

- ☐ A By measuring the temperature of the soil
- ☐ B By sensing the amount of water in the soil
- ☐ C By measuring the amount of sunlight the plant receives
- ☐ D By tracking the plant's growth rate magnetometer

CORRECT ANSWER

☒ B

5 Which of the following best describes the AND operator in block coding?

- ☐ A It combines two conditions and returns true only if both conditions are true.
- ☐ B It combines two conditions and returns true if either condition is true.
- ☐ C It negates a condition.
- ☐ D It compares two values.

CORRECT ANSWER

☒ A

6 What is the purpose of a while loop in block coding?

- ☐ A To execute a block of code a specific number of times.
- ☐ B To execute a block of code repeatedly as long as a condition is true.
- ☐ C To create a decision-making process.
- ☐ D To define a function.

CORRECT ANSWER

☒ B

7 What does initialization mean in block coding?

- ☐ A Ending a loop.
- ☐ B Giving an initial value to a variable before using it.
- ☐ C Creating a new function.
- ☐ D Printing the output to the console

CORRECT ANSWER

☒ B

Critical Thinking Challenge

- 1 Discuss the importance of water conservation in sustainable gardening. What are some strategies to reduce water usage?

- 2 Describe the benefits of automating plant watering using smart technology. How can automation improve plant health and reduce manual labor?
