UNIT 2 BRAINSTORMING & IDEA GENERATION

Introduction

In Unit 2, you will take the next steps toward bringing your smart device project to life by refining and visualizing your ideas. This is an exciting phase where creativity and innovation are key. You will focus on the top three ideas you selected in Unit 1, think about how to implement them using MODI modules, and create detailed plans and sketches. This process will help you develop a clear vision of your project and prepare you for the building phase.

Refining and Visualizing Ideas

CREATING DETAILED PLANS

Based on the top three ideas you chose in Unit 1, create detailed plans for each. Outline the steps you will take to build your smart device, from assembling the modules to programming and testing your device. Include a timeline to help you stay on track.

YOUR FLOWCHART

Drawing Your Ideas

Use this section to draw your smart device ideas. Visualizing your concepts will help you understand how the MODI modules will fit together and function. Be creative and detailed in your drawings.

Drawing Section

Questioning the Details

- What MODI modules will you need for your project, and what functions will they perform?
- What is your step-by-step plan for building your smart device?
- How will the different MODI modules work together to achieve your project goals?
- What potential challenges might you face, and how will you overcome them?

Examples of Brainstorming Through Drawing

Battery Button

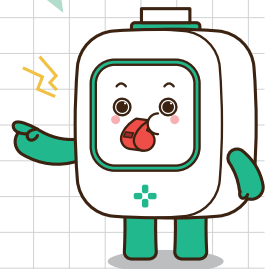

L.E.D

1. The battery sends energy to the module
2. I press the button.
3. The L.E.D module lights on!

Your Drawing Notes

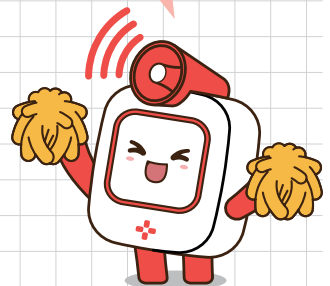

Think big! Don't be afraid to brainstorm even the craziest ideas. Sometimes the best solutions come from unexpected places.

Your Drawing Notes

Use diagrams and sketches to visualize your ideas and make your planning clearer.

Final Thoughts

Summary of Refining and Visualizing

Summarize the detailed plans and sketches you created for your top three ideas. Highlight the key features and functions of each idea, and explain how you plan to use MODI modules to bring them to life.

Final Thoughts

Reflect on the refining and visualizing process. Discuss any challenges you faced and how you overcame them. Write down any additional thoughts or ideas that came up during this unit.
