UNIT 4 CODE QUES

Applying Knowledge (code & debugging)

CODE

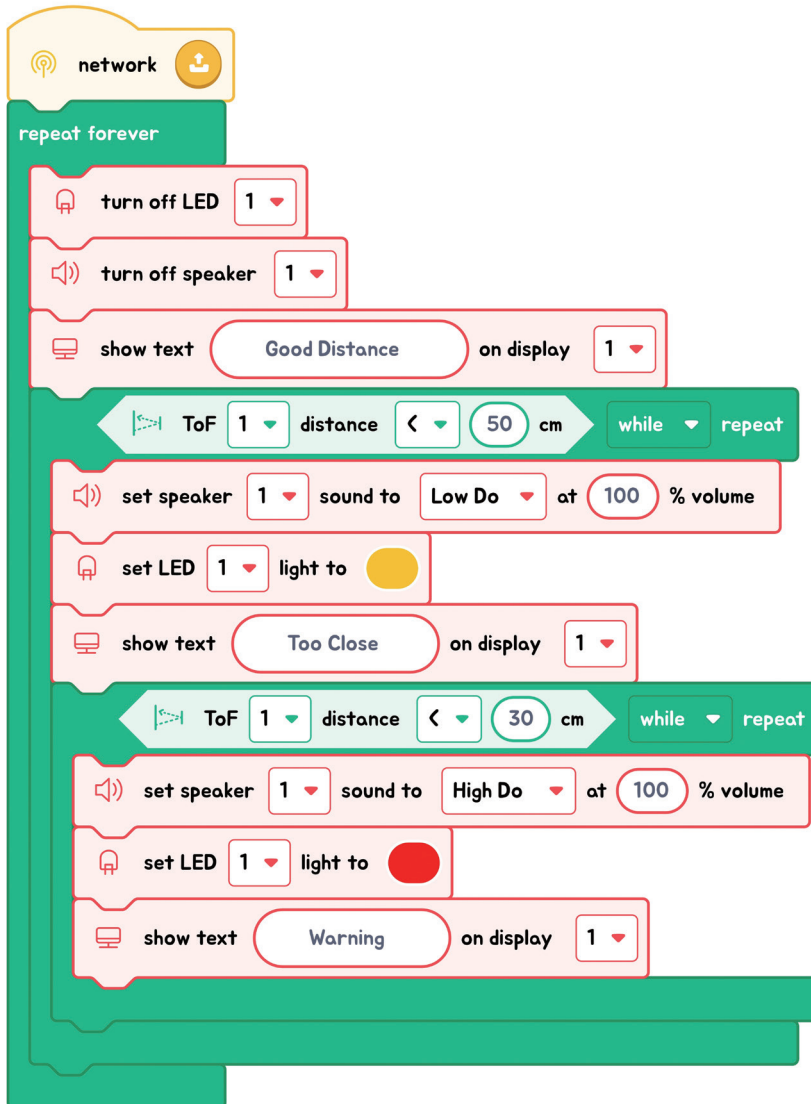

DEBUGGING

- 1 What will be happened if there are no initial-ization?
- 2 Why B while loop is in the A while loop?

MISSION 1

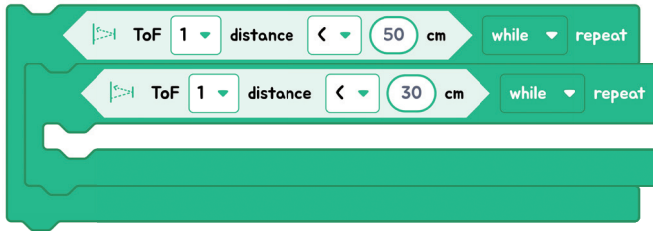

1 If we want to change the warning sound and color which blocks do we have to change?

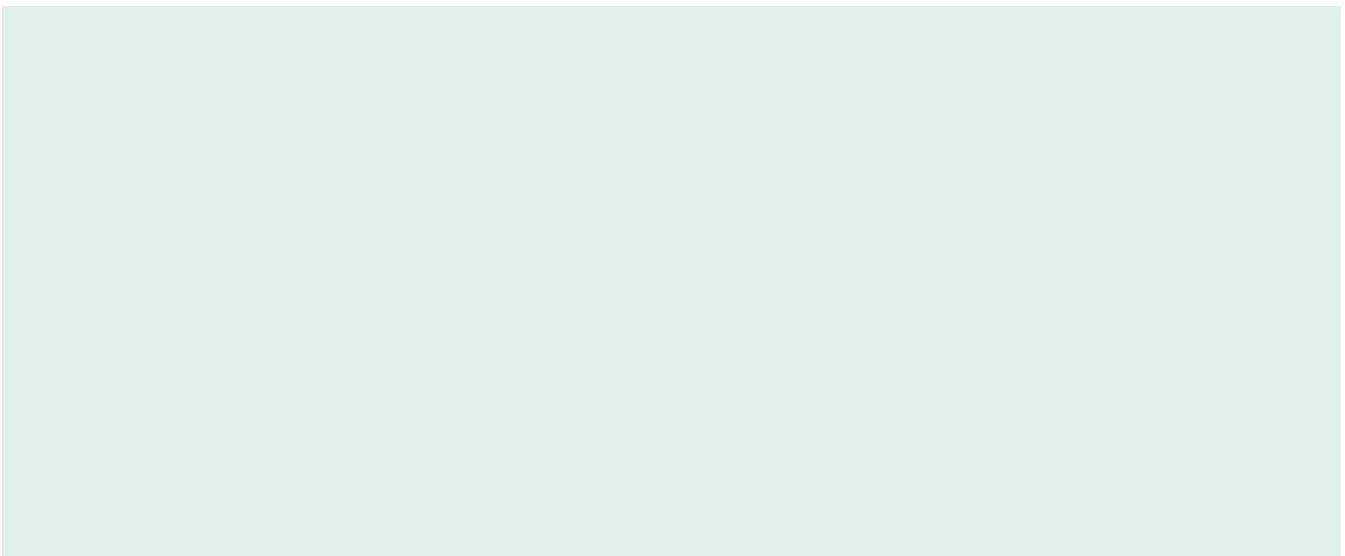

2 Change the initialization part to LED as Green.

MISSION 2

1 If we want to change the warning sound and color which blocks do we have to change?

2 Based on the condition change the code while to if statement.

KNOWLEDGE CHECK

1 Why is it important to maintain good posture while learning?

- ☐ A It makes you learn faster
- ☐ B It helps improve focus and prevent physical strain
- ☐ C It makes the teacher happy
- ☐ D It helps you finish your work faster

CORRECT ANSWER ☒ B

2 What is one of the main health problems caused by poor posture?

- ☐ A Weaker muscles and joint pain
- ☐ B Stronger muscles
- ☐ C Improved organ function
- ☐ D Better breathing

CORRECT ANSWER ☒ A

3 How can technology help improve posture?

- ☐ A By providing nutrition advice
- ☐ B By making us exercise more
- ☐ C By using sensors to detect poor posture and reminding us to correct it
- ☐ D By encouraging unhealthy habits

CORRECT ANSWER ☒ C

4 Why do we need posture monitoring devices?

- ☐ A To help us stay healthy by maintaining good posture
- ☐ B To improve focus in class maintaining good posture
- ☐ C To improve our social skills
- ☐ D To sleep better at night

CORRECT ANSWER ☒ A

5 What is the role of a ToF (Time of Flight) distance sensor?

- ☐ A To measure time
- ☐ B To detect objects and measure the distance to them
- ☐ C To detect light levels
- ☐ D To sense temperature changes

CORRECT ANSWER ☒ B

6 What does "initialization" mean in coding?

- ☐ A Creating new variables
- ☐ B Assigning an initial value to a variable
- ☐ C Ending a program
- ☐ D Repeating a loop

CORRECT ANSWER ☒ B

7 What is the purpose of a "while" loop in coding?

- ☐ A To execute code only once
- ☐ B To check conditions after running the code
- ☐ C To stop the program immediately
- ☐ D To repeat a block of code as long as a condition is true

CORRECT ANSWER ☒ B

Critical Thinking Challenge

- 1 Why do you think maintaining good posture is important for your overall health? Can you think of any activities in your daily routine that might affect your posture?

- 2 If posture monitoring devices were widely used, how might they change people's daily habits? What positive and negative effects could this have?

Expanding Knowledge on the Topic

KEEP
calm
AND do
YOGA

Yoga is an ancient practice that started in India over 5,000 years ago. It began as a way to connect the body, mind, and spirit. People would practice yoga to stay healthy, calm their minds, and find inner peace. Today, millions of people around the world practice yoga to keep their bodies strong and flexible.

HOW DOES YOGA HELP WITH POSTURE?

One of the best benefits of yoga is how it helps us improve our posture. Poor posture can lead to back pain, tired muscles, and even trouble breathing. When we practice yoga, we learn how to stand, sit, and move in ways that support our bodies.

Yoga has specific poses, like the "Mountain Pose" or "Cat-Cow Pose," that strengthen the muscles in your back and core. These muscles help keep your spine straight and your shoulders relaxed, which is important for good posture. Over time, practicing yoga regularly can help you develop better habits and feel more comfortable sitting or standing for long periods.

NAMASTE

WHY IS GOOD POSTURE IMPORTANT?

Good posture helps us avoid pain and discomfort. When you stand or sit properly, you give your muscles and joints the support they need. Yoga teaches us to be aware of how we carry our bodies, making it easier to keep good posture throughout the day.

By practicing yoga, not only do we improve our flexibility, but we also learn to balance, strengthen, and align our bodies, which helps prevent problems caused by poor posture. So next time you roll out your yoga mat, remember—you're not just exercising; you're building a healthy habit that can last a lifetime!
