UNIT 1 INVESTIGATING SAFETY IN PLAYGROUNDS

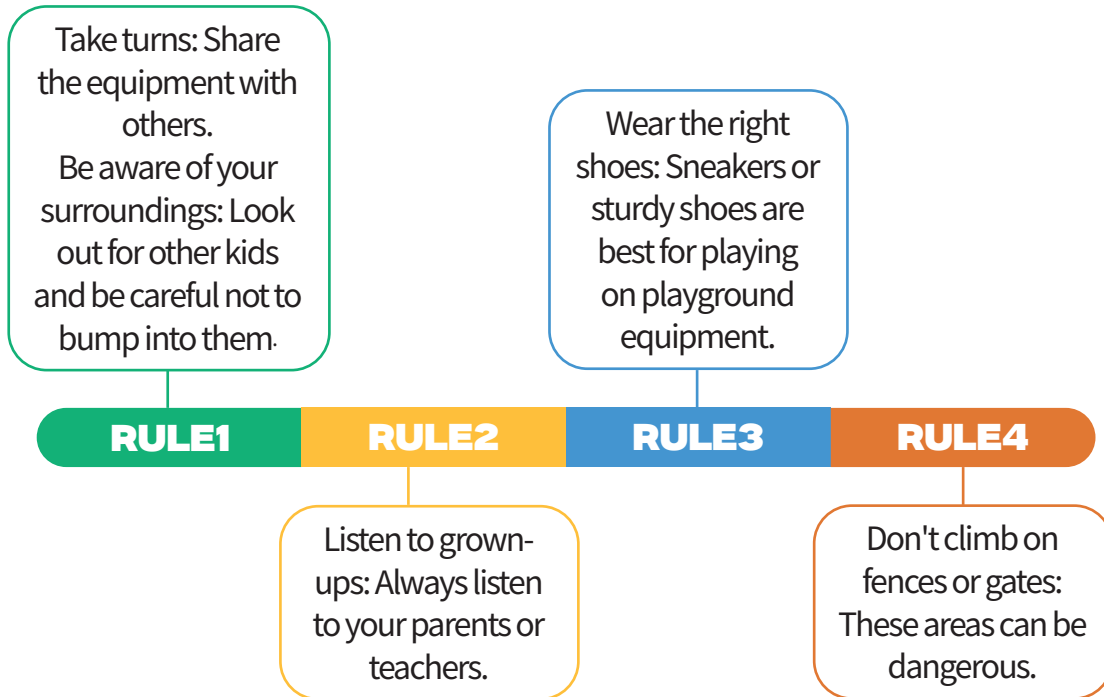

Have you ever thought about why playgrounds are designed the way they are? Playgrounds are special places where we can have lots of fun, but it's important to remember that safety comes first! In this lesson, we're going to explore why playgrounds have certain rules and special features that keep us safe while we play.

WHY PLAYGROUNDS ARE SPECIAL

- 1 Playgrounds are more than just places to have fun. They're designed to help us:
- 2 Get active: Playgrounds encourage us to run, jump, and climb, which is great for our health!
- 3 Learn and grow: By playing on different equipment, we learn about our bodies and how they move.
- 4 Make friends: Playgrounds are wonderful places to meet new friends and play together.

PLAYGROUND SAFETY RULES

To keep everyone safe at the playground, let's follow these simple rules:

PLAYGROUND SAFETY FEATURES

Playgrounds have many safety features to protect children from injuries.

Some of these features include:

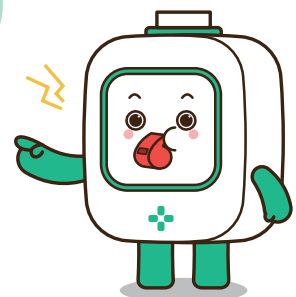

- 1 SOFT SURFACES** These are materials like rubber or sand that cushion falls.
- 2 SAFETY RAILINGS** These prevent children from falling off equipment.
- 3 AGE-APPROPRIATE EQUIPMENT** Playgrounds are designed with different equipment for different age groups to ensure safety.
- 4 REGULAR INSPECTIONS** Playgrounds are regularly checked to make sure they are in good condition.

WHY ARE THESE SAFETY FEATURES IMPORTANT?

- 1** Prevent injuries: Safety features help to prevent serious injuries such as broken bones and concussions.
- 2** Protect children from hazards: Safety features help to protect children from potential hazards such as sharp edges or uneven surfaces.
- 3** Playgrounds are fun places to play, but they also need to be safe. By understanding the importance of safety features and following the rules, we can ensure that everyone has a safe and enjoyable experience at the playground.
- 4** Encourage safe play: By having safety features in place, children can play confidently and have more fun.

Remember, safety first!

Activity:

What are some other safety features that you can think of for a playground?

Why is it important to follow the rules at a playground?

How can we make sure that playgrounds are safe for everyone?

Activity:

Let's design our own safe playground! Draw a poster which shows the Playground **Safety Rules**.
