This PDF document is included in the unit materials.

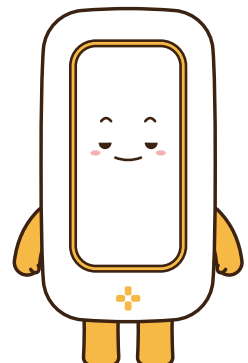

UNIT 3 PEACOCK CREATION

WHY DO PEACOCKS SPREAD THEIR WINGS?

- 1 SHOWING OFF** Peacocks spread their wings to show off their beautiful feathers. It's like when we dress in our favorite clothes and want to show them to our friends.
- 2 ATTRACTING FRIENDS** Peacocks spread their wings to attract other peacocks. They do this to find a partner or to make friends.

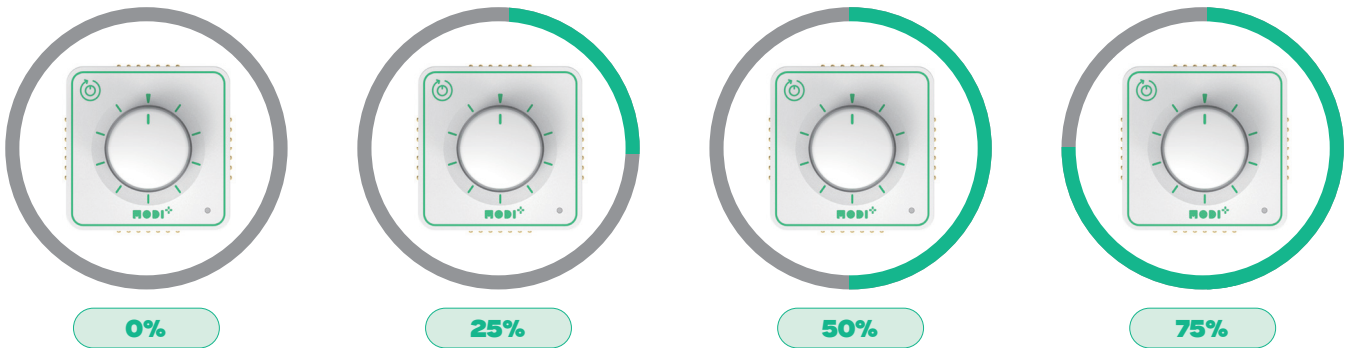

So, spreading wings helps peacocks show how pretty they are, find friends, and stay safe!

DO YOU REMEMBER WHAT DIAL DO?

A dial is not just a round knob that you can turn. It's a powerful tool that empowers you to control things by changing how much or how little something happens.

EXAMPLES OF DIAL MODULE

Volume

Temperature Control

VOLUME CONTROL On radios or speakers, there is a dial you turn to make the sound louder or quieter.

TEMPERATURE CONTROL Temperature Control: Some devices, like heaters or air conditioners, have dials to set the temperature.

Activity: Peacock, spread your wings

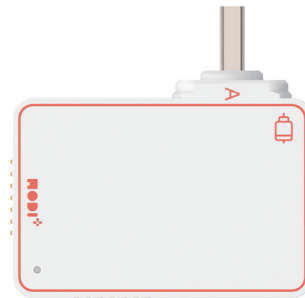

1. Materials Needed:

Network

Dial

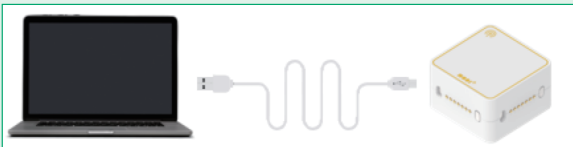

Motor A

2. Connect the Network with computer

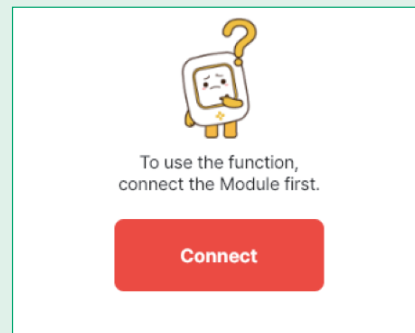

Step 1

Connect the Network Module to your device using a Type-C cable.

Step 2

Click the connect button in the module map.

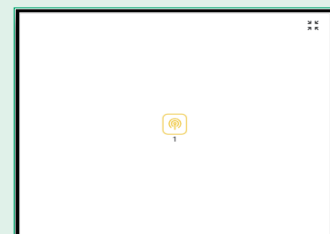

Step 3

Select 'MODI+ Network Module-Paired' and then click 'Connect' again.

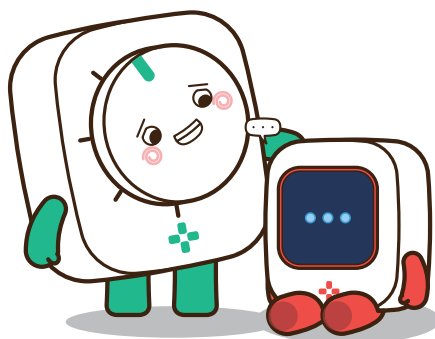

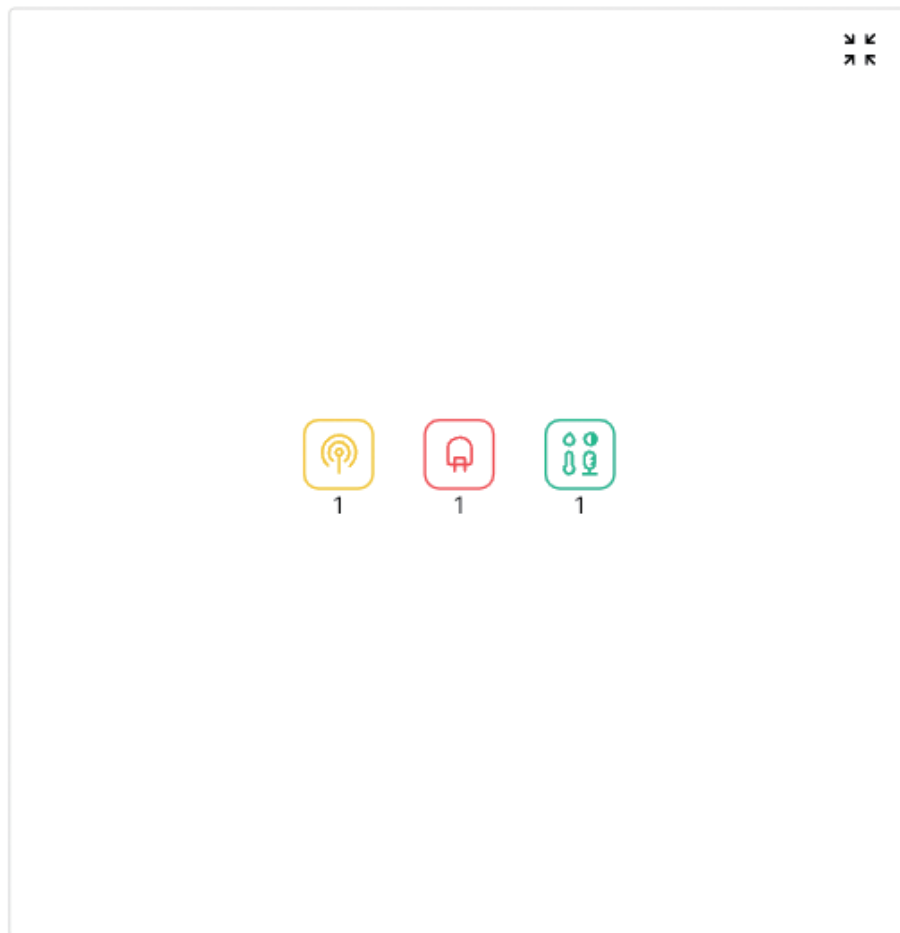

Step 4

A network icon will appear in the Module Map when the connection is successful.

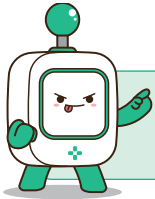

3. Let's attach the Environment and LED modules next to the Network! Once everything is connected, you should see three modules displayed on the module map.

Coding

Code Story

Topic Camp Fire

DEFINITION

CODE DESIGN

We will be meeting a peacock.
Is there something you are most excited about?

DECOMPOSITION

STORY TO CODE

We will make the peacock's wings move slowly, opening and closing.
Which module will you activate to do this?
Please write down the names of the modules you can use.

ABSTRACTION

CODE DESIGN

How will it work?
Let's write down the steps in order.

Open wings

Wait for 2 seconds

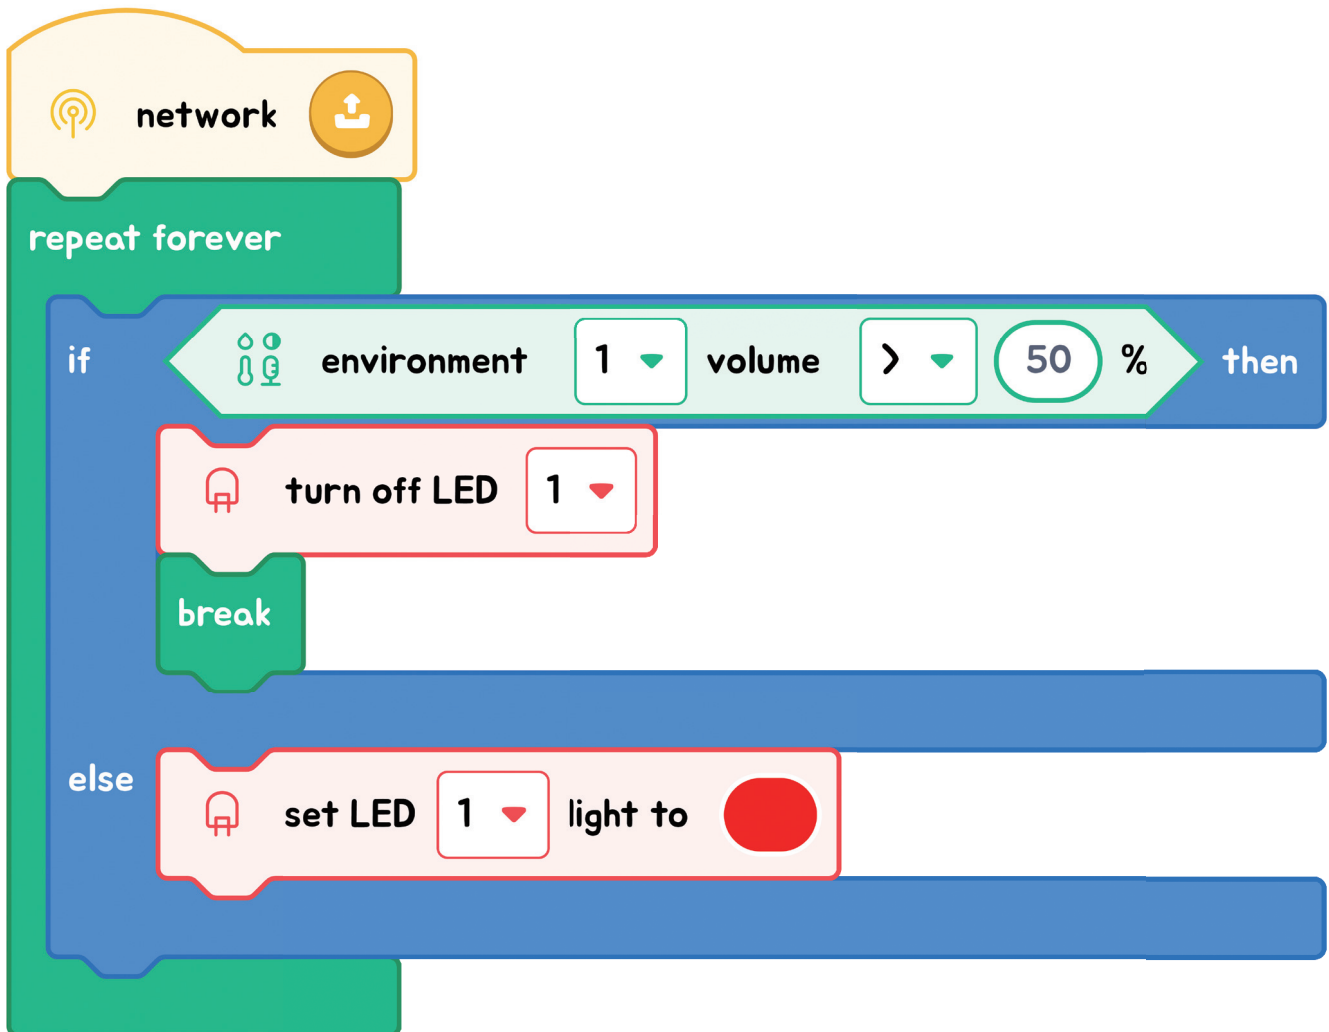

Close wings

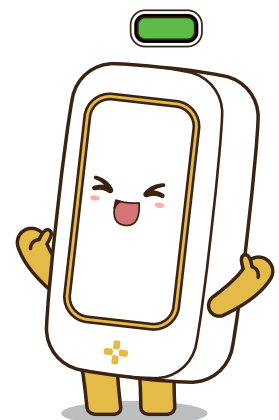

Wait for 2 seconds

Code Quest

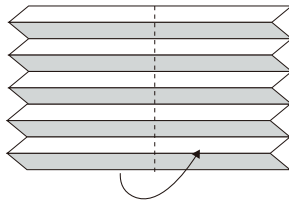

Now, let's use the template to create a birthday cake! Combine the template and the modules well to make the candles together.

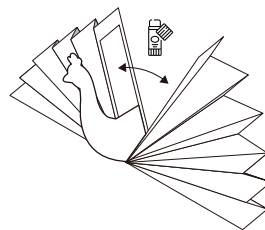

Peacock

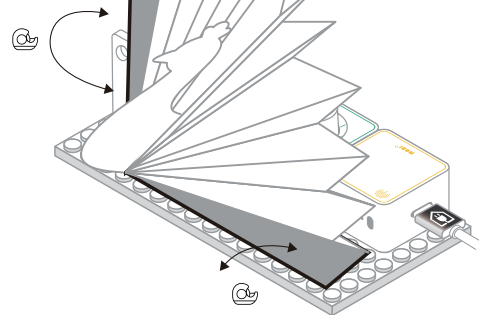

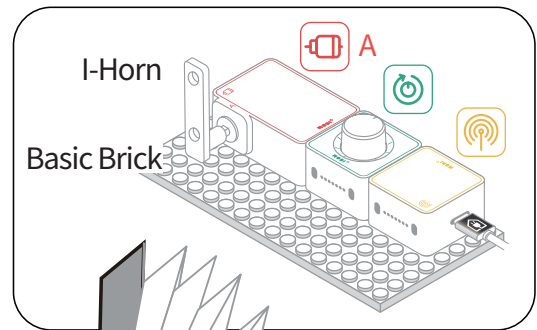

Designer MODI

Cut along the solid lines and fold along the dashed lines to create a fan shape. Fold in half.

Insert and glue the peacock face between the two folded wings. Glue the two wings together.

Secure one side of the peacock's wings to the Basic Brick on the floor and tape the other side firmly to a straight rod.
