## UNIT 3 ROOM LIGHT CREATION

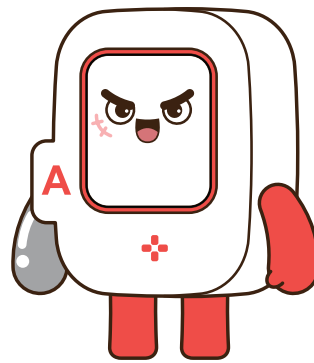

Imagine you're in a dark room and need to find your favorite book or toy. What if you could make your light to help you see better? In this activity, you'll learn how to use an LED, a button, and a battery to create a light you can turn on and off whenever you want. It's like making your little lamp that brightens up your room!

**MATERIALS NEEDED:****Battery****Button****LED**

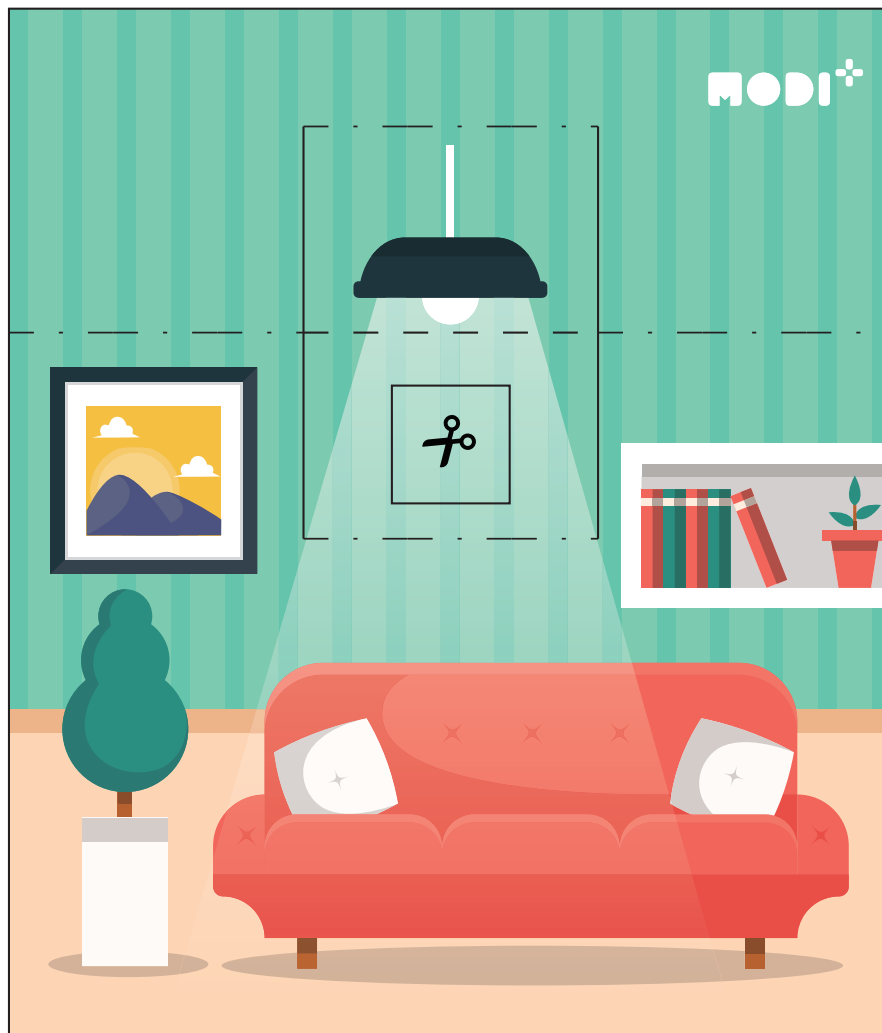

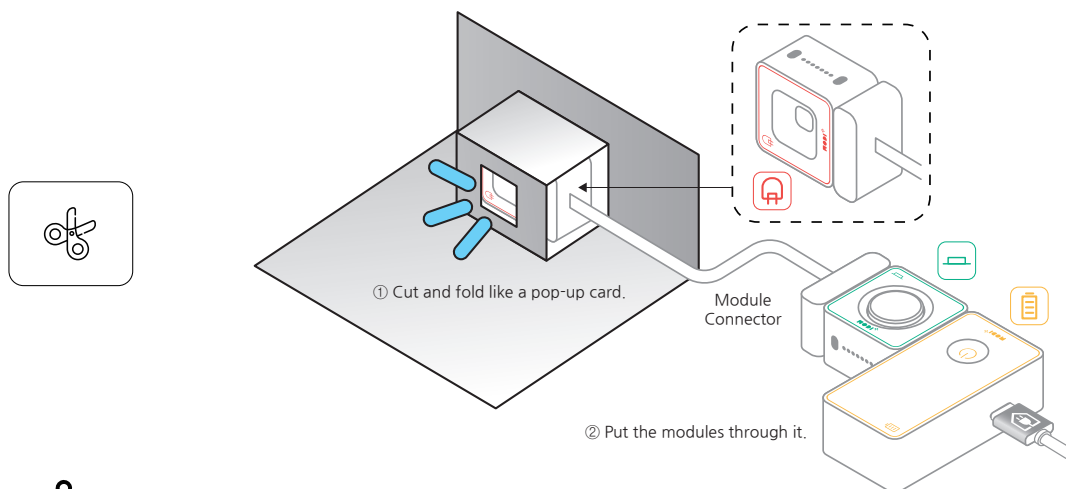

We'll start by connecting the LED to the Battery and the Button, letting us control when the light turns on. Then, you can decorate your light to make it unique and special just for you. So, get ready to explore, create, and light up your space with your homemade light!
