UNIT 3 BUILDING YOUR OWN SPIN MOP

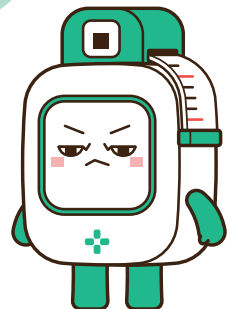

Now that we know how an electric spin mop works, let's get creative and build our own mini version! This activity will help you understand the different parts of a spin mop and how they all work together to make cleaning easier.

UNDERSTANDING A DIAL

A dial is not just a round knob that you can turn. It's a powerful tool that empowers you to control things by changing how much or how little something happens.

With this Dial, we can adjust the speed of mopping!

MATERIALS NEEDED:

Battery

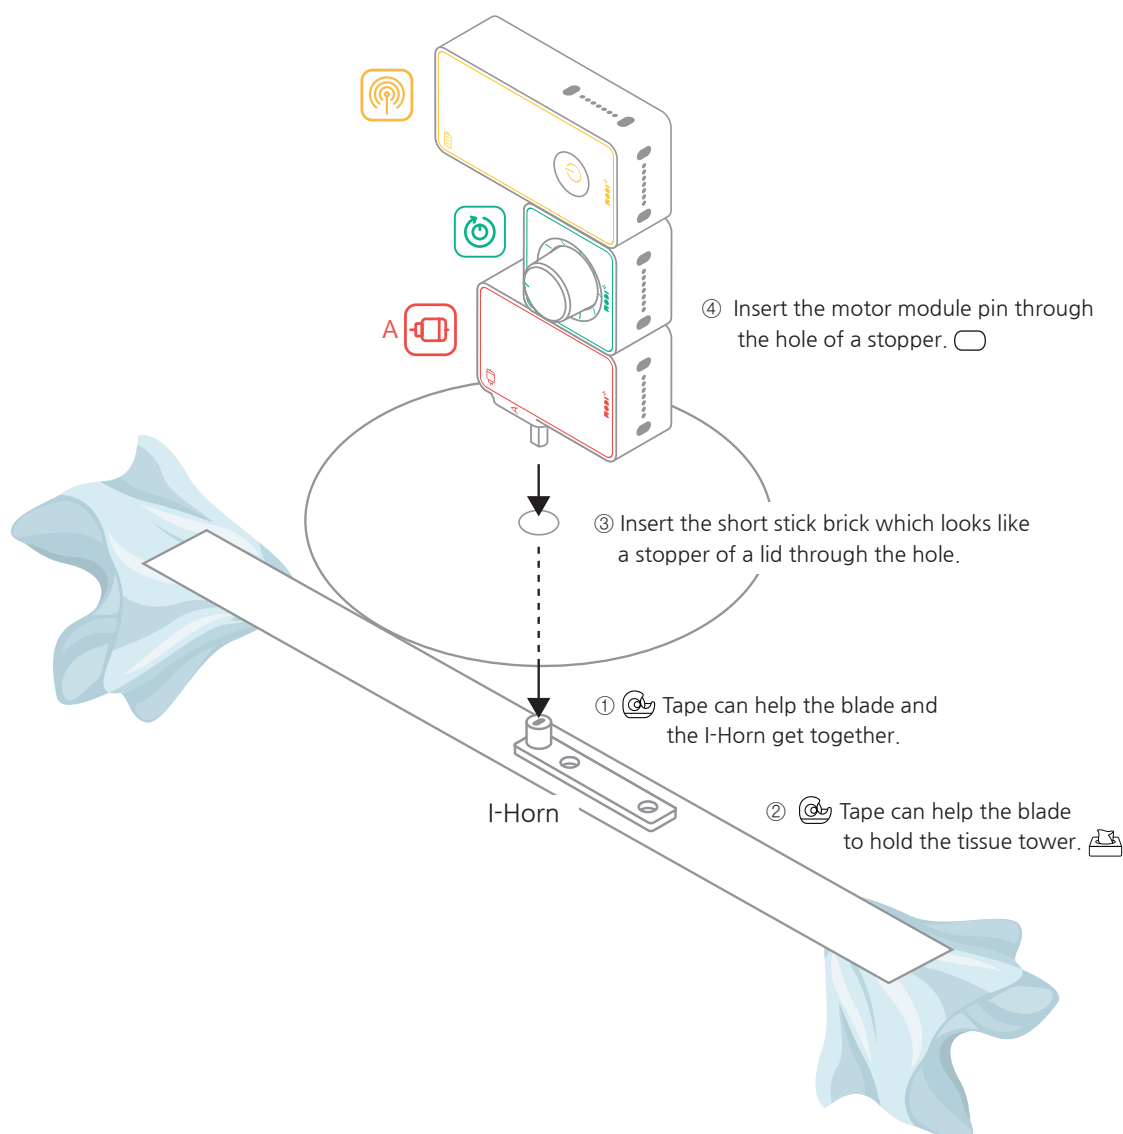

Dial

Motor A

I-Horn

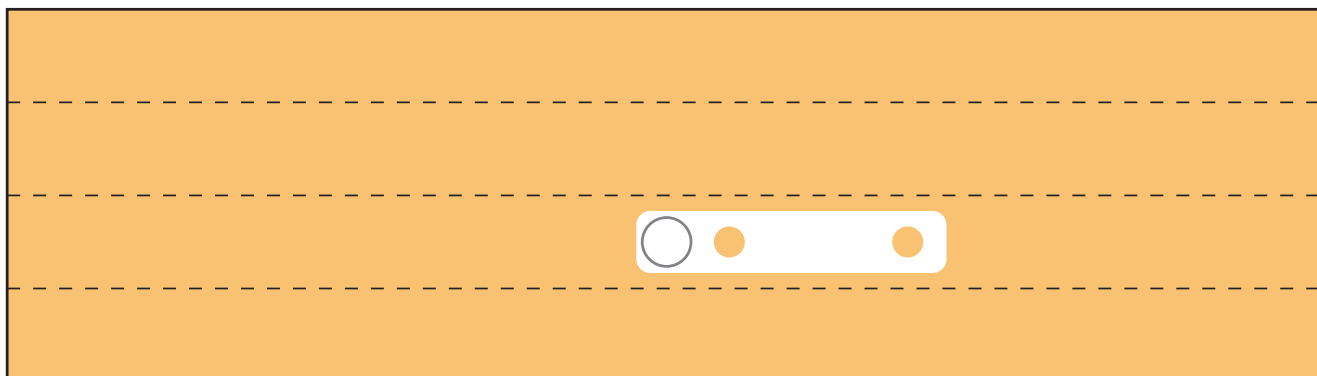

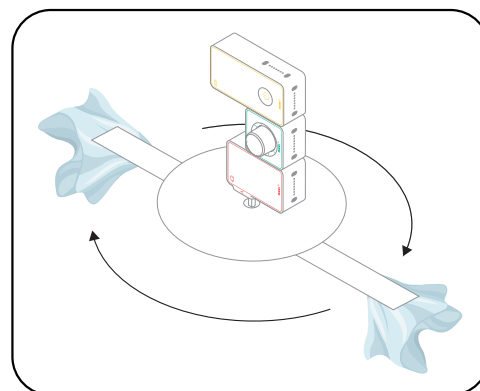

[Guidelines]

Create something amazing which is on next page!

Activity: Electric Spin Mop

Electric Spin Mop
