UNIT 2 THE SOUNDS AND SIGHTS OF A CAMPFIRE

WHAT DO YOU HEAR AROUND A CAMPFIRE?

A campfire is more than just warmth and light—it's also about the unique sounds you hear as you sit close to the fire. Here are some of the things you might hear:

CRACKLING WOOD

The fire, with its comforting warmth, makes a soothing crackling sound as it burns the wood.

WIND

Sometimes, you can hear the wind gently blowing through the trees.

CHIRPING CRICKETS

At night, you might hear crickets singing softly.

TALKING AND LAUGHING

A campfire is where friends and family talk, tell stories and laugh together.

WHAT DO YOU SEE AROUND A CAMPFIRE?

Sitting by a campfire also gives you a chance to see some beautiful and exciting things:

DANCING FLAMES

The fire's flames move and flicker in different colors, like orange and yellow.

GLOWING EMBERS

As the fire burns, the wood turns into bright red and orange embers.

SHADOWS

The light from the fire makes shadows that move and change shape.

STARS

Looking up, you might see bright stars in the night sky.

Let's find out what you need for a campfire in the picture.

●● Let's think about more

What activities would you like to do if you go camping with your friends? Write them down! And when you have a campfire, you can make a wish. What wish would you like to make? Write that down, too!
