This PDF document is included in the unit materials.

UNIT 2 INPUT AND OUTPUT

WHAT IS INPUT?

Input is when you give information to a computer or device. It's like talking to the computer.

For example:

KEYBOARD

When you type letters on a keyboard, you are giving input to the computer.

MOUSE

When you click on a mouse button, you give input to the computer.

TOUCHSCREEN

When you touch the screen of a tablet or smartphone, you are giving input.

WHAT IS OUTPUT?

Output is what the computer or device gives or talks back to you.

For example:

MONITOR When the screen shows pictures or words, that is the output.

SPEAKERS When the computer plays a sound or music, that is the output.

PRINTER Printed paper is the output when you print a picture or document.

EXAMPLES OF INPUT AND OUTPUT:

TV REMOTE When you press a button on the remote (input), the TV changes the channel or volume (output).

MICROWAVE When you press the buttons to set the cooking time (input), the microwave starts cooking your food (output).

GAME CONTROLLER When you press the buttons on the controller (input), the game character moves on the screen (output).

● **Let's find out** _____

Let's find out which input makes the output!

Input		Output	
1. When enter the number,	•	•	game starts
2. When pressing a remote controller,	•	•	TV is on
3. When clicking the mouse,	•	•	it will be calculated.
4. When the car's power is clicked,	•	•	starting the car

Let's practice

We use letters to communicate, but computers can't read letters. Computers can only read 0s and 1s. Let's try to see the world like a computer! In the picture below, **color only the 1s** and see what shape appears!

0	1	1	1	0	0	0	1	1	1	0
1	0	0	0	1	0	1	0	0	0	1
1	0	0	0	0	1	0	0	0	0	1
0	1	0	0	0	0	0	0	0	1	0
0	0	1	0	0	0	0	0	1	0	0
0	0	0	1	0	0	0	1	0	0	0
0	0	0	0	1	0	1	0	0	0	0
0	0	0	0	0	1	0	0	0	0	0
